Will do one today, both Norphlet and Macmillan operated on the same parcel of land at different time periods Macmillan through the 80's and Norphlet in the 2000's. The contamination we are finding in releases is representative of Macmillan ERA wastes, since the reason to change the name. I will amend the TDD today. .

Subject: TDD for Norphlet Chemical

Brenda,

Weston informed Cora and I that Norphlet Chemical has a pending name change to Macmillan Ring Free Oil Company.

To change the name you need to do a TDD amendment.

Thanks.
